Project has been coordinated with: Eric Hoskins, Tonto Basin Ranger District. Jim Lawrence, Mule Deer Foundation. Teri Cline, O BAR C Ranch.

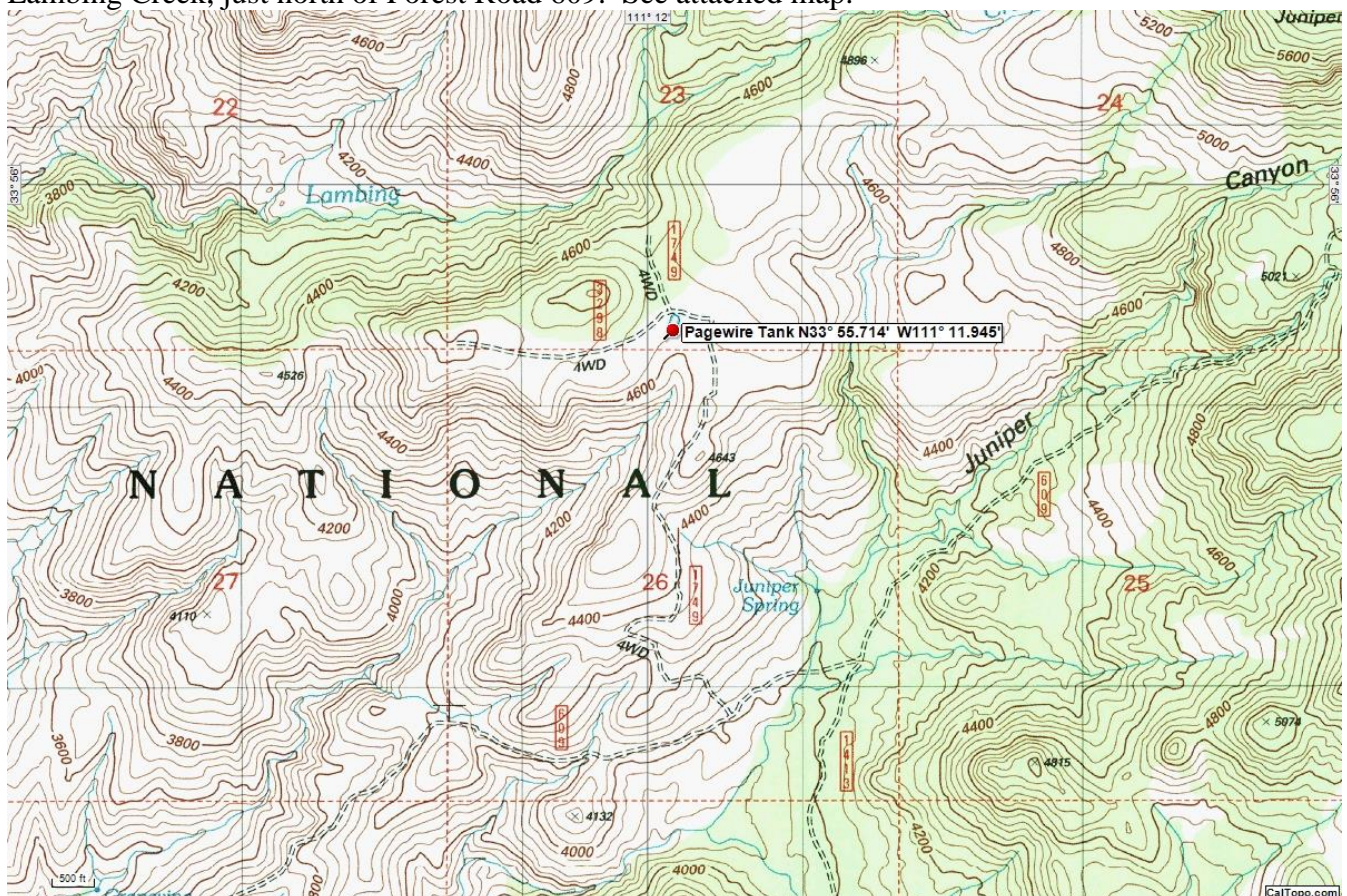

NEED STATEMENT – PROBLEM ANALYSIS: The need of water sources in 23S is part of the overall long-term habitat needs that will improve deer habitat and sustain a viable to growing population. GMU 23 South used to sustain a much larger deer population. Part of the problem with the depressed population that currently exists is water availability. The Juniper area has a growing mule deer herd. This herd will benefit from this water source in a key forage area and hopefully increase fawn survival as it is located away from high pressure areas. White tail deer, javelina and quail are also located in immediate vicinity of the tank and also utilize this water source.

PROJECT OBJECTIVES: This project will clean out a sediment filled dirt tank to provide water for wildlife.

PROJECT DESCRIPTION AND STRATEGIES: This project will clean out and seal a dirt tank. The tank is silted in and holds a small amount water. The tank historically has not held water and will benefit from bentonite application. The tank will be cleaned of excess silt via dozer and bentonite will be applied and mixed into the soil.

This project is NEPA ready. The EAC is to be completed. Archeological Clearances and Categorical Exclusions are in the process of being completed by the Forest Service. The route to the tank needs to be walked and archeologically cleared to bring the equipment in due to there not being a pre-existing road. The author will submit a revised proposal once this is complete.

PROJECT LOCATION: This project is located in the Tonto Basin Ranger District near Lambing Creek, just north of Forest Road 609. See attached map.

LAND OWNERSHIP AT THE PROJECT SITE(S):

(if the project area is private property, please state specifically and provide the landowner's name)

- United States Forest Service, Tonto Basin Ranger District

IF PRIVATE PROPERTY, IS THERE A COOPERATIVE BIG GAME STEWARDSHIP or LANDOWNER AGREEMENT BETWEEN THE LANDOWNER AND THE DEPARTMENT?

YES[] NO[] N/A[X]

HABITAT DESCRIPTION:

Juniper woodland with mixed juniper, mesquite and scrub oak. The elevation is about 4,700 feet.

ITEMIZED USE OF FUNDS:

Special Big Game License Tag Funds

TOTAL GRANT FUNDS REQUESTED: \$4,000

Cost Share or Matching Funds (for volunteer labor rates please refer to the worksheet below)
