

File Code: 2210

Date: January 24, 2022

The Bar X, L.L.C.

Dear (b) (6)

This Annual Operating Instruction is a guide for management of the **Bar X Allotments** for the **2022 grazing year**. This plan is made part of your Term Grazing Permit as specified in Part 2, Number 8(a) of the permit and supersedes your 2021 AOI(s).

**I. PERMITTED USE**

The following table illustrates the number of livestock and period of use permitted on the **Bar X Allotments** as per Term Grazing Permit #12241 issued to The Bar X, LLC.

ALLOTMENT	KIND	CLASS	NUMBER	SEASON OF USE
BAR X	CATTLE	COW/CALF	552	1/1 - 12/31
BAR X	CATTLE	YEARLING	160	1/1 - 5/15

**II. AUTHORIZED USE**

The following numbers and classes of livestock are authorized to graze on the **Bar X Allotments** this year.

KIND	CLASS	NUMBER	SEASON OF USE
CATTLE	COW/CALF	205	3/1 - 2/28
CATTLE	BULLS	20	3/1 - 2/28
CATTLE	YEARLINGS	105	3/1 - 5/15
HORSE	HORSE	5	3/1 / 2/28

### **ROTATION SCHEDULE<sup>1</sup>**

Actual dates may vary depending upon climatic conditions, drought, wildfire, noxious weeds, soil, and range conditions, conflicts with or for protection of wildlife, water availability, utilization levels and time required to move livestock. Any deviation from this schedule needs to be discussed with Payson range staff prior to moving your cattle outside of the dates listed. Estimates of forage utilization will be performed and documented on pastures about the time the pasture is vacated.

<b>BAR X ALLOTMENT: 2022</b>			
<b>AUTHORIZED PASTURE</b>	<b>CLASS OF LIVESTOCK</b>	<b>AUTHORIZED NUMBER</b>	<b>AUTHORIZED SEASON OF USE</b>
MCINTURFF	Cow/calf	205	3/1 - 5/15
	Bulls	20	
	Yearlings	105	
HQ TRAPS	Cow/calf	205	5/15 - 6/1
	Bulls	20	
UPPER/LOWER DRY CREEK	Cow/calf	205	6/1 - 6/30
	Bulls	20	
NAEGLIN	Cow/calf	205	7/1 - 9/30
	Bulls	20	
HQ TRAPS	Cow/calf	205	10/1 - 10/15
	Bulls	20	
WALNUT, WINDMILL, STEER, BULL	Cow/Calf	205	10/16 - 2/28
	Bulls	20	
HORSE	HORSE	5	3/1-2/28

### **III. ALLOWABLE USE STANDARDS**

The use on key species in key areas will ultimately determine the length of the grazing period in each pasture. The establishment of the utilization standards is consistent with 36 CFR 222 regulations, FSM 2210 and 2230, and FSH 2209.21. Grazing will be managed so that conservative use levels are achieved over the long-term. Considerable research has been done showing that conservative use levels will allow for sustaining and improving watershed conditions. Conservative utilization levels are as follows:

<b>Upland</b>	Herbaceous:	30-40% of current year's growth
	Woody:	50% of current year's growth
<b>Riparian</b>	Herbaceous:	40% of plant species biomass (any species) and maintain 6-8 inches of stubble height on Deergrass

<sup>1</sup> Other pastures may be considered for use a part of a drought contingency plan

	Woody:	50% of leaders browsed on upper 1/3 plants up to 6 feet tall
<b>Mexican Spotted Owl PAC's (Where Applicable)</b>	20% optimum to 40% maximum Management Mexican Spotted Owl and Northern Goshawk habitats within the allotment are according to standards and guidelines in the Tonto NF Plan (pages 40-1 through 40-13).	

Utilization is measured at the end of the growing season, in key areas<sup>1</sup> for key forage species<sup>2</sup>. However, grazing intensity will be evaluated during the growing season in order to practice proactive management and make necessary management changes needed for plant development and recovery. Utilization measurements serve as only one piece of information that is considered when evaluating the effectiveness of allotment management. Utilization data will be coupled with other information such as vegetation condition, forage plant production and vigor, soil and watershed condition, and long-term trends, in order to make informed management recommendations concerning pasture moves and stocking rates.

<sup>1</sup> Key areas are defined in the Tonto NF Plan (pg. 42-1) as being ¼ to 1 mile from water, located on productive soils on level to intermediate slopes, and be readily accessible for grazing.

<sup>2</sup> Key forage species are defined in the Tonto NF Plan (pg. 42-1) as plants chosen to be appropriate to monitor average allowable use.

**IV. MONITORING**

Monitoring dates are tentative, and some may not be required. Range personnel from the Payson District will be contacting you prior to monitoring visits. We encourage your participation in these inspections, as it provides an opportune time to discuss resource conditions and management items. VGS Monitoring may be conducted in the fall. A priority for monitoring may be based upon those allotments with forthcoming NEPA.

**V. ADMINISTRATION**

The table below indicates the records submitted by the permittee to satisfy the Ownership Requirement portion of the permit. The permittee must hold ownership of the corporation (if applicable), deed for the base property, and brand associated with that permit for the entire term of the permit. Any undocumented changes in ownership are a violation of the terms and conditions of your term grazing permit under Part 2, Sec. 7.

<b>Entity/Person(s) Designated as Permittee</b>	The Bar X, LLC.		
<b>Base Property</b>	As listed in Exhibit A of your 2230 Permit file A portion of Homestead Entry Survey (b) (6) Gila County, AZ, Special Warranty Deed, 2006		
<b>Brand(s)</b>	Owner: The Bar X, LLC.	#04566 Expires: January 15, 2024	

We request that you maintain records that reveal the number of livestock, date of entry, and the date of livestock leaving each pasture and submit them to us at the end of the grazing season.

**VI. SALT AND MINERAL BLOCK**

Salting may be used to aid in livestock distribution and management. Salting must be located no closer than ¼ mile from streams, rivers, riparian areas, trails, and known archaeological sites.

**VII RANGE IMPROVEMENT CONSTRUCTION / MAINTENANCE**

The permittee shall maintain all range improvements that are assigned for maintenance in the Term Grazing Permit. All work involving the use of heavy equipment will be accomplished only after prior approval of the Forest Officer in charge of the allotment.

See the 2019 Allotment Management Plan for information regarding improvements and maintenance. Always contact the District prior to beginning any work to check current fire restrictions.

<b>BAR X ALLOTMENT IMPROVEMENT WORK SCHEDULED: 2022</b>		
<b>IMPROVEMENT NAME</b>	<b>CLEARANCES NEEDED</b>	<b>NOTES</b>
FR 512 Boundary Fence	<b>Wildlife</b>	Contact district prior to using mechanical equipment to ensure compliance with MSO restrictions
Cattle Guard Installation at FR 411 C and FR 291	NA	District is working on sourcing cattle guards
FR 411 Shared Corral with Red Lake	<b>Heritage</b>	Contact district with location to start heritage clearance process

**VIII. PROTECTION**

The permittee, his agents and employees, when acting within the scope of their employment, and his contractors and subcontractors will protect the land and property of the United States, waived private land and other land under jurisdiction of the Forest Service covered by and used in conjunction with this permit.

**IX. ALLOTMENT INSPECTIONS**

Forest personnel may conduct periodic brief inspections of pastures within the allotment at any time to verify actual use, improvement conditions, or other non-range related activity.

**X. PERMIT CONDITIONS**

Failure to comply with any of the terms and conditions specified in Parts 1, 2, and 3 of your Term Grazing Permit may result in suspension or cancellation, in whole or in part, after written notice. This is found in Part 1, Section 3, of your permit.

Sincerely,

**MATTHEW  
PACIOREK**
