

Arizona Post-Wildfire Infrastructure Assistance Program Grant Summary

Grant Recipient Name	Purpose	Total Signed Grant Amount
AZ Deer Association	The Lyons Fork Allotment is known as the Government Springs Ranch and consists of approximately 32,000 acres (50 square miles). 75% of the land is USFS lease and 25% is State lease and Private land. During the recent Telegraph Fire, 70% of the ranch burned. Several water storage tanks were lost, as well as 8 miles of poly pipe water distribution pipelines. This infrastructure is critical to both livestock and wildlife alike, providing perennial water. Per USFS regulation, all fire damaged materials must be removed from USFS managed lands prior to infrastructure replacement.	\$ 41,990.00
Pima County	The 2020 Bighorn Fire wildfire and associated suppression activities damaged approximately seven (7.0) miles of barbed wire fence on ranches owned and managed by Pima County and its ranching partners. In its current condition, the fencing is non-functional and needs to be replaced to prevent livestock from moving between working ranches.	\$ 294,000.00
U of A	After the Bear fire, there was significant damage to approximately 8 miles of fence which will require a complete re-build. 6 miles of that fence received enough damage to weaken the fence supports and ruin the wire. 1 mile was completely destroyed by fire. There is an estimated 5 miles that will need general post fire repair from burned posts and stays. Around 12 miles of fence are still in good repair since they did not receive fire impacts. The work needs to be completed to keep the permittees in compliance with their federal grazing permits, to keep their livestock in the designated allotment, and to keep all livestock safe and away from areas that could cause injury or mortality to the animal.	\$ 462,100.00
U of A	After the Cow fire, there was significant damage to approximately 21 miles of fence which will require repair or rebuild. 11 miles of that fence received enough damage to weaken the fence supports and ruin the wire. 10 miles will need to be completely reconstructed. The remaining approximately 29 miles of fence has minimal damage. The work needs to be completed to keep the permittees in compliance with their federal grazing permits, to keep their livestock in the designated allotment, and to keep all livestock safe and away from areas that could cause injury or mortality to the animal.	\$ 483,545.00
U of A	After the Horton fire, there was significant damage to approximately 5 miles of fence which will require repair or rebuild. 8 miles of that fence received enough damage to weaken the fence supports and ruin the wire. 5 miles will need to be completely reconstructed. The remaining approximately 2 miles of fence has minimal damage. The work needs to be completed to keep the permittees in compliance with their federal grazing permits, to keep their livestock in the designated allotment, and to keep all livestock safe and away from areas that could cause injury or mortality to the animal.	\$ 230,250.00
Arizona Association Conservation District	The Jones Allotment is 17,000 acres of Forest Service Land of which 13,944 acres was burned. There are 78 acres of private land which 56 acres was burned. Three Corrals, three pipelines with spring boxes, and 6.6 miles of pasture fence were destroyed by the telegraph fire. All infrastructure needs repair and/or replacement.	\$ 453,905.00
Arizona Association Conservation District	The El Capitan Allotment is 17,625 acres of Forest Service Land of which 13,380 acres was burned. Over 42,000 ft of interior fence, 475 ft of corrals, 2 loading facilities at the corrals, 17,750 ft pipeline, (10) 750 gallon troughs, (1) 200 Gallon trough, (4) 5,000 gallon storage tanks and (4) 3,000 gallon storage tanks were destroyed in the telegraph fire. All infrastructure needs repair and/or replacement.	\$ 497,240.00
Arizona Association Conservation District	The Hobbs Allotment is 15,837 acres of Forest Service Land of which 15,142 acres was burned. There are 1,590 acres of private land which 1,422 acres was burned. Interior fences totaling 7.64 miles, 1,950 ft of pipelines and a 750 gallon trough were destroyed by the telegraph fire. All infrastructure needs repair and/or replacement.	\$ 375,985.00
Arizona Association Conservation District	The Government Springs Allotment is 45,631 acres of Forest Service Land, BLM, State Land and private land of which 38,329 acres was burned. Over 79,000 feet of fence were destroyed by the telegraph fire. All infrastructure needs repair, removal and/or replacement.	\$ 403,780.00
Arizona Association Conservation District	The Ptak/ Gryphon Ranch Project is 1,000 acres of private land of which 750 acres was burned. Pipelines totaling 1,000 ft and over 17,000 feet of fence were destroyed by the telegraph fire. All infrastructure needs repair and/or replacement.	\$ 127,110.00
Arizona Association Conservation District	The Coolidge/Parker Allotment is 14,750 acres of Forest Service Land of which 9,016 acres was burned. Four interior fences over 50,000 ft, six pipelines over 33,000 ft a 5,000 Gal Storage and 2 750 Gal trough were destroyed by the telegraph fire. All infrastructure needs repair and/or replacement.	\$ 500,000.00
Arizona Association Conservation District	The Slash S Allotment is 27,088 acres of BLM, State and private land of which 26,500 acres were burned. Over 97% of the allotment was burned. One 3,000 gallon storage, 13,600 ft of pipelines and 10.60 miles of fence were destroyed by the telegraph fire. All infrastructure needs repair and/or replacement.	\$ 499,805.00
Arizona Association Conservation District	The Dripping Springs Allotment is 34,997 acres of BLM, State Land and private land of which 8,456 acres was burned. 4.72 miles of fence were destroyed by the telegraph fire. All infrastructure needs repair and/or replacement.	\$ 226,560.00
