I. PURPOSE OF AGREEMENT

State Forestry is the recipient of funds provided by the State of Arizona for the purpose of emergency repairs for infrastructure projects within the State of Arizona.

The objective of this funding is to provide funding to public and private landowners for emergency repairs to infrastructure that was damaged from fires or fire suppression activities that occurred on or after July 1, 2020. This agreement is a sub-award of these State funds.

II. SCOPE OF WORK

Compensation is contingent upon Sub-grantee fulfilling the Scope of Work and project commitments as identified in the Grant Application (Attachment A).

This Agreement shall be effective immediately upon signature by all parties and will terminate on **December 31, 2024** unless otherwise terminated or modified pursuant to the terms herein.

V. COMPENSATION AND MATCHING INVESTMENT

Compensation under this agreement will allow for retroactive reimbursement as well as up to a 50% drawdown with a 50% reimbursement of the total award at completion, shall not exceed the total eligible costs of the project, and total compensation (State Forestry grant portion) **shall not exceed \$245,400.00**

Only costs for those project activities approved in (1) the initial award, or (2) approved modifications thereto, are allowable. All payments are contingent upon the availability of State funds. An initial 50% drawdown payment will be made within thirty days after a signed agreement. Reimbursement payments will be made to the Sub-grantee normally within ninety days after receipt of the reimbursement request and required documentation.

VI. ELIGIBLE COSTS

For non-retroactive items and activities, eligible costs must be incurred during the Term of the Agreement, conform with the General Provisions of this Grant Agreement (Attachment B) and all other provisions identified herein, and be submitted to State Forestry along with detailed supporting documentation. The Sub-grantee shall, upon request of the State, participate with State personnel in performing interim and/or final inspections.

IX. PROCUREMENT REQUIREMENTS

The Sub-Grantee shall comply with all applicable provisions of State laws and regulations in regard to procurement of goods and services, and to contracts for repair or restoration of public facilities.

X. REPORTING REQUIREMENTS

Sub-grantee shall monitor the performance of the grant activities to ensure that performance goals are being achieved. Sub-grantee shall provide detailed grant/project accomplishments in quarterly reports to State Forestry no later than 30 days after the end of each calendar quarter, or as requested by State Forestry. Requests for modification shall be made, in writing, at least thirty (30) days prior to the implementation of the requested change. Any change to the original grant application scope of work or approved detailed project plan must have prior written State approval. EXTENSIONS

Timely completion of this project is required. If this agreement is extended by mutual written consent of the parties, all terms, conditions and provisions of the original agreement shall remain in full force and effect and apply during any extension period. Any extension of time granted shall not constitute or operate as a waiver by the State of any of its rights herein. Grant Reimbursement and Documentation Requirements

Arizona State Forestry grants are based on reimbursement for actual costs incurred. Sub-grantees are typically required to provide a portion of the total project cost as MATCH contribution to show local investment in the project or program. Match investment cannot be used as a match for any other State or federal cost-share programs. Specific match amount is identified in each grant agreement. All costs and match should conform to the approved application contained in the grant agreement – and all reimbursements are subject to Arizona State Forestry approval.

All documentation submitted for reimbursement must have the correct project name and/or State Forestry grant number, date work was completed, and proof of payment from the Sub-grantee.

All reimbursements to Sub-grantees shall be calculated from the “Grant Reimbursement Form”. By signing the form, the Sub-grantee assumes full and implied responsibility for all grant costs incurred and submitted on the form. By signature, the Sub-grantee accepts full liability that the work and costs incurred were in accordance with the agreed scope of work and/or approved detailed project plan and in accordance with all applicable Federal and State laws. By signing the “Grant Reimbursement Form”, the Sub-grantee is claiming that costs were incurred following the established procurement process for its own organization and that their process is documented, administered and managed with the correct accounting and administrative procedures and is in accordance with all applicable Federal and State laws.

INELIGIBLE COSTS – Any expenses submitted for reimbursement that are not properly documented shall not qualify for reimbursement. It shall be the Sub-grantee’s sole responsibility to submit the required and accurate support documentation for all project costs. In the event an audit determines that ineligible costs were charged to the project, the Sub-grantee accepts full liability for such costs.

- Expenses not included in an approved project plan or are unnecessary for the completion of the project are ineligible for reimbursement or as match.
- NO FOOD or BEVERAGE purchases or donations to others are eligible for reimbursement or as match, unless included in the project plan as budgeted travel costs, and pre-approved by State.
- Large equipment purchases: Applicants are encouraged to rent equipment when possible and cost-effective, or to use matching funds to purchase large equipment. DFFM acknowledges that some projects may only be completed using program funds to procure equipment.
- Poorly documented match or volunteer hours with insufficient support documentation will not count towards the required match. It is the Sub-grantee’s responsibility to keep all project/grant records pertaining to matching requirements. In the event an audit determines that ineligible match was credited to the project, the Sub-grantee accepts full liability for such costs

ATTACHMENT C

The time sheet must clearly have the State grant ID number, an employee signature, and the dates work hours were contributed towards the grant. A supervisor's approval signature should also be included. Note, for auditing purposes, an auditor will most likely want to see all hours worked in addition to those charged to the grant.

Additional details will be provided for approved purchases. If an audit determines that excessive equipment was purchased, the Sub-grantee accepts full liability for cost reimbursement back to the State. Please limit your liability by purchasing only items listed in the original grant application and detailed project plan. Please only purchase what is necessary to complete the specific grant/project approved.

- Required documentation will include purchase receipts detailing costs and equipment details.

Equipment Operating Costs - Operating costs for owned, rented, or donated equipment may be permitted if included in the project plan and properly documented. Methods for cost determination must be specifically documented and approved. Use of Sub-grantee owned equipment may be charged to the grant if prior approval is granted. A Sub-grantee may submit a rate agreement that is typical of rate charges established for all agencies utilizing the equipment including their own. Under no circumstances shall the grant be charged for use of equipment purchased with State funds, beyond operating costs.

- Required documentation can include receipts detailing costs, dates and details of equipment usage, payment receipts, mileage logs, shift tickets, etc. Any operating costs that are not paid for directly and do not have corresponding payment receipts, must be specifically documented as to method of cost determination.

ELIGIBLE MATCH – Grants may require some level of MATCH investment from the Sub-grantee organization. Matching investment may only be included if goods or services are provided during the term of the agreement and are necessary for the completion of the project. The matching investment may be in the form of cash expended and/or in-kind contributions used toward the project. The Sub-grantee share (match) cannot be used as a match for any other cost-share program. As with reimbursable costs, eligible match expenses only include those that are reasonable and necessary for the completion of the grant-funded program or project and must meet the approved Cost Principles.

Matching investments will not be directly reimbursed.

Examples of possible match include:

Cash - Matching investment can include actual costs incurred as documented above.

- Required documentation will include payment receipts, cancelled checks, or official accounting records detailing expenses and related goods and service provided.

In-kind Contributions - include the use of on-hand supplies, use of third party donations of supplies or equipment, the value of professional services provided at the professional rate, or time spent by employees on eligible project activities.

- Use of in-kind contribution of goods or services from another business or organization may be counted as community match with proper documentation. This typically consists of a letter on the donating organization's letterhead, signed by the proper person and showing the amount and type of donation. Property or use thereof shall be assigned a fair market value per applicable Cost Principles and should include a letter of documentation from the donating party.

Volunteer - Volunteer labor hours shall conform to documented standard operating procedures for the Sub-grantee organization with established pay rates.

- Required documentation for volunteers will include signed time logs/sign-in sheets with volunteer name, date, time, place, and type of volunteer service provided. Volunteer time may be valued at the local market rate for equivalent work (children at minimum wage). Hourly rates exceeding \$20 per hour will require specific support documentation for justification and approval. If you use consultants, forestry professionals, planners, etc., who donate their professional services, appropriate hourly rates may be documented in a letter from the individual or their organization.
