

## Arizona Post-Wildfire Infrastructure Assistance Program Grant Summary

Grant Recipient Name	Purpose	Total Signed Grant Amount
Arizona Association of Conservation Districts	The Ponderosa_ El Capitan Allotment is 9,000 acres of BLM, State and private land of which 5,840 acres was burned. A 750 gallon trough, 100 ft pipeline with a spring box and over 37,000 feet of fence were destroyed by the telegraph fire. All infrastructure needs repair and/or replacement.	\$ 361,500.00
Arizona Association of Conservation Districts	The Victory Cross Allotment is 8,620 acres of BLM Land, State and private land of which 7,581 acres was burned. This ranch is 87% burned. Over 10 miles of fence was destroyed by the telegraph fire. All infrastructure needs repair and/or replacement.	\$ 488,250.00
Arizona Association of Conservation Districts	The Sandflat Allotment is 34,510 acres of Forest Service Land of which 6,350 acres was burned. Over 20,000 feet of fence were destroyed by the rafael fire. All infrastructure needs repair and/or replacement.	\$ 75,800.00
Arizona Association of Conservation Districts	There are 36,716 acres of Forest Service Land of which 10,282 acres was burned. There are 7,015 acres of private land which 1,373 acres was burned. Corrals, a loading chute, 750 gallon troughs, pipeline, well pumps with solar and over 5 miles of fence were destroyed by the bighorn fire. All infrastructure needs repair and/or replacement.	\$ 324,000.00
Mule Deer Foundation	The Mangum Fire burned through Northern Arizona and the Kaibab NF in June and July of 2020, destroying thousands of acres and a considerable amount of local infrastructure. The Willis Canyon Allotment lost infrastructure in this fire, namely a considerable length of pipeline. Our proposed plan would be to use the Arizona Post-Wildfire Infrastructure Assistance Program to repair/reinstall 14,900 ft of two separate pipelines that were damaged in the fire.	\$ 23,000.00
Arizona Association of Conservation Districts	The Gilson Wash Allotment is BLM and private Land. Two corrals, hay bunkers, water storage, troughs, pipelines with a spring box and over 7 miles of fence were destroyed by the telegraph fire. All infrastructure needs repair and/or replacement.	\$ 353,900.00
Arizona Association of Conservation Districts	The AACD Project #1 is on Forest Service Land. 8.50 miles of fence were destroyed by the telegraph fire. All infrastructure needs repair and/or replacement.	\$ 417,000.00
Arizona Association of Conservation Districts	The AACD Project #2 is on Forest Service Land. 2 miles of fence were destroyed by the telegraph fire. All infrastructure needs repair and/or replacement.	\$ 98,600.00
Arizona Association of Conservation Districts	The AACD Project #3 is on Forest Service Land. 7 miles of fence were destroyed by the telegraph fire. All infrastructure needs repair and/or replacement.	\$ 336,600.00
Arizona Association of Conservation Districts	The AACD Project #4 is Forest Service Land. 5.25 miles of fence were destroyed by the telegraph fire. All infrastructure needs repair and/or replacement.	\$ 245,400.00
Remaining Balance \$795,940

Hello Jeffrey Burgess,

Your PRR number: PRR-000249.

Please see the information below in regards to your request and additional questions.

This email serves as completion and closure of your request.

The APWIAP grant listed on line #1 was intended for the BLM's Ponderosa and El Capitan grazing allotments, which burned in the 2021 Telegraph Fire. According to the BLM, these allotments have different grazing permittees. Please provide the amounts that were dedicated to each of these allotments from this \$361,500 grant.

[The Ponderosa\\_El Capitan is a BLM lease, State Land Lease and private land. This project should not get mixed up with the name El Capitan with the Forest Service Allotment named Capitan. The Forest Service changed the name of that allotment. There is only 1 permit holder for the Ponderosa\\_El Capitan project and will receive the entire amount of \\$361,500.00.](#)

On line #4 of the attached file, it explains this \$324,000 grant went to grazing allotments burned by the 2020 Bighorn Fire, which occurred in the Coronado National Forest's Santa Catalina Ranger District. There were two grazing permittees affected by this fire. One was the permittee for the Samaniego, Canada del Oro, American Flag, Interocean & Finley Springs grazing allotments. The other was the permittee for the Bellota grazing allotment. Please provide the specific amounts that were dedicated to these allotments.

[Carlink Ranches is the only project for the Bighorn Fire. This contract is for Forest Service \(Bellota Allotment\) and private land. They are receiving the entire \\$324,000.00.](#)

The last four rows listed in the attached file were for grants, totaling \$1,097,600, for Tonto National Forest grazing allotments affected by the Telegraph Fire. Please provide the names of each of the grazing allotments each of these grants were intended for.

[Tonto National Forest is contributing 50% of the funding required to complete the boundary fence project. Because they were unable to secure funding for the entire 74.2 miles, AACD has submitted 4 projects to the DFFM Fire Recovery Fund. No individual is applying for boundary fence as no individual is the direct beneficiary of this recovery effort. Boundary fence recovery efforts support the projects involving interior fence projects already underway.](#)

[Beneficiaries of these projects are private landowners, BLM permit holders, county land managers, Arizona State Land Department and Federal Land managers.](#)

17 ranches currently have APWIAP Contracts  
11 forest service permittees  
2 private landowners  
2 BLM permittees  
2 AZ Land Dept Permittees

Thank you,

Department of Forestry and Fire Management
