

**SIERRA VISTA RANGER DISTRICT  
CORONADO NATIONAL FOREST  
ANNUAL OPERATING INSTRUCTION (AOI)  
Alisos Allotment  
2023 Grazing Year**

---

**I. AUTHORIZED USE:** The following numbers and classes of livestock are authorized to graze on the Alisos Allotment:

KIND	CLASS	NUMBER	AUMs	AUTHORIZED SEASON OF USE
Cattle	Cow/Calf	190	2280	03/01/2023 – 02/28/2024
Cattle	Bulls	14	252	03/01/2023 – 02/28/2024
	<b>Total</b>	<b>204</b>	<b>2532</b>	

Notes: AUM conversion factor for cow/calf=1.00, Bull 1.5.

**II. ROTATION SCHEDULE:** Actual dates may vary dependent upon climatic conditions, when utilization levels are reached and time required to remove cattle.

Pasture	Proposed Numbers	Proposed Season of Use	Comments (i.e. Use Standard, special concerns or instructions)
Upper Alisos	95 + 7	03/01/2023 – 04/30/2023	
Sierra Tordillo	95 + 7	03/01/2023 – 03/31/2023	
Lower Alisos	95 + 7	04/01/2023 – 04/30/2023	
Lower Alisos	204	05/01/2023 – 05/31/2023	
Mesquital	204	06/01/2023 – 07/31/2023	
Holding	204	08/01/2023 – 08/31/2023	
North Piedregosa	204	09/01/2023 – 11/30/2023	
South Piedregosa	204	12/01/2023 – 12/31/2023	
Mine	95 + 7	01/01/2024 – 02/28/2024	
Sierra Tordillo	95 + 7	01/01/2024 – 02/28/2024	

If you should need to deviate from this rotation schedule by more than two weeks, please notify this office in advance. Livestock remaining in pastures beyond the specified rotation date, that are allowed to drift between pastures, or grazing in rested pastures may be considered a violation of your Term Grazing Permit.

**III. ALLOWABLE USE STANDARDS:**

Utilization in all pastures is not to exceed 45% in the key areas. Please refer to your key area map. Herding and salting will be used to ensure allowable use is not exceeded. If allowable use is in danger of being exceeded, the cattle should be removed from that pasture until the range recovers. Salt and supplement will be placed appropriately, on good feed, at least ¼ mile from water and out of livestock concentration areas and more than 200 feet from roads. Salt and supplement locations should be rotated so as not to degrade a particular site. Salt blocks may be removed by the District if found near water, over-utilized areas, or roads. Blocks should be placed on hard ground not susceptible to erosion.

**IV. MONITORING:**

The permittee will record actual use as it occurs, including livestock numbers and dates permitted livestock are in a pasture. This information will be reported at the next annual operating instruction meeting. Common implementation monitoring includes forage production, forage utilization, photo points, condition of improvements, actual use and precipitation data.

To continue to meet Biological Opinion requirements for exclosures across the district, they need to be inspected at a minimum of three times a year. The Alisos Allotment has two Pima Pineapple exclosures in the Mesquital Pasture. We are asking you as the permittee to take note of the following topics when you visit the exclosures and report the status of them on the attached Exclosure Monitoring Form.

- Date of Inspection
- Status of Fence (up or down)
- % of Fence Inspected
- Livestock use observed
- Level of livestock use (if observed)
- If livestock use did occur, what is the estimate of how long livestock were in exclosure.  
If Livestock use has occurred in an exclosure, please notify the district with specifics of the incident.

**V. RANGE IMPROVEMENT CONSTRUCTION / MAINTENANCE:**

The Forest Service may spot check range improvements before the entry date to insure improvements are in a satisfactory condition. Livestock will not be allowed to enter pastures if assigned improvements are not maintained to proper standards. Livestock will not be allowed to enter pastures if fences will not keep livestock where they are placed.

All troughs should have water when livestock are not present and be equipped so that small animals can safely enter and exit.

New range improvements and all ground disturbing activities will not be initiated until proper archeological clearances have been obtained. When improvements are completed the permittee will inform District Range personnel to schedule an inspection. Before using machinery to clean any pond, the permittee is required to give the District Office at least 30 days advance notice so that the tank can be inspected for threatened or endangered species. All work involving the use of heavy equipment will be accomplished only after prior approval by the District Ranger. Improvement schedule is dependent upon funding.

Current Year Improvement Schedule			YEAR	2023
Permit Mod #	Improvement Type / ID #	Completion Date	Description/Comments	Status Done /Date
	Grainger Pipeline 353034	TBD	Pipeline was stretched out in 2019. Needs to be buried in place of old pipeline. FS to provide Materials and the permittee shall provide the labor. May have to wait for consultation with FWS for burial.	
	Pipeline Extensions	TBD	Various pipeline extensions across the allotment, will scout out with permittee.	
	Lower Alisos Well	TBD	Look into placement for a well in Sycamore Canyon of Lower Alisos pasture. Will need Archaeological clearance.	
	Sierra Tordillo Fencelines	TBD	Coordinating with NRCS border funding and NRCS Equip for funding replacement to multiple fences within the Sierra Tordillo Pasture	
Previous Year Improvement Schedule			YEAR	2022
Permit Mod #	Improvement Type / ID #	Completion Date	Description/Comments	Status Done /Date

**VI. ROADS:**

Vehicular access on established roads can be essential for structural range improvement maintenance, supplement placement and general ranch duties. Any open road to the public (road on Motor Vehicle Use Map- *MVUM*) may be used at any time for any reason. The use of other established roads must be authorized within the Term Grazing Permit or in the Annual Operating Instructions. Cross country may be authorized by written permission from the District Ranger. Vehicular access is authorized on the following Forest Service inventoried roads not on the MVUM:

Road Number (From TAP Maps)	Reason for Use	Comments (i.e. Use Standard, special concerns or instructions)
4902-0.43L-1	Improvement Access	
4674-0.77L-1	Improvement Access	

**VII. REFUNDS AND CREDIT OF GRAZING FEES PAID (FSM 2238.11g)**

Refunds will only be approved where the term grazing permit has been waived, the waiver of term grazing permit has been confirmed by the authorized officer, and a new permit issued to a qualified applicant indicated on the waiver of term grazing permit (FS-2200-12), or if a current permittee has applied for, and the authorized officer has approved, nonuse for which grazing fees have previously been paid.

Grazing fee credits will be approved when late entry or early removal of livestock is requested by the permittee for legitimate reasons and/or when delayed entry or early removal of livestock is requested by the authorized officer for reasons of resource protection. Credit for grazing fees will not be approved merely for the convenience of the permittee after the bill for collection is issued.

**VIII. PROTECTION:**

The permittee, his agents and employees, when acting within the scope of their employment, and his contractors and subcontractors will protect the land and property of the United States, waived private land and other land under jurisdiction of the Forest Service covered by and used in conjunction with this permit. During periods of high fire danger, branding fires will be allowed by permit only. Please report all fires to the Tucson Interagency Fire Coordination Center at 1-800-549-0661.

**IX. PERMIT CONDITIONS:**

This Annual Operating Instruction is hereby made a part of the Term Grazing Permit as provided for in Part 2, Section 8(a). It complies with the standards and guidelines found in the Forest Plan. Failure to comply with any of the terms and conditions specified in Parts 1, 2, and 3 of your Term Grazing Permit may result in suspension or cancellation, in whole or in part, after written notice. This is found in Part 1, Section 3, of your permit.

In 2021, the Forest consulted with the US Fish & Wildlife Service about on-going grazing activities and the impacts they may have on threatened and endangered species. You have been provided a copy of the Biological Opinion (BO). Please pay particular attention to the sections pertaining to the species on your allotment. If you need new copies, please contact this office. Please pay particular attention to the terms and conditions and conservation recommendations for each species.
