Dear Steve:

Enclosed is your 2016 Annual Operating Instructions (AOI) for the Arab Allotment, developed between you, Kendell, Matt and Andy. The pasture rotation and numbers discussed are as follows:

Table with 3 columns: Pasture, Numbers, Dates. Includes handwritten entries for Butler Buckwheat, Buckwheat Jackson, Jackson Butler and dates like June 1 to July 15, July 16 to September 30, Oct 1 - Aug 31, Oct 1 to Oct 31, Sept. 1.

The Aniceto Pasture will be rested this season. The pasture rotation, season of use and numbers may vary depending on several factors including, but not limited to, precipitation, water availability and forage conditions. The desired utilization level is 25% to 35% on key species in the key areas and we would like to monitor utilization with you after the livestock leave a pasture.

As discussed over the phone, there will be a fence crew sometime this summer working on a 1/2 mile stretch of fencing in Arab Allotment. When we get a better understanding of dates, I will pass that information on to you.

By this letter, I also authorize you or persons employed by you, to cut or remove any trees needed for fence posts and stays for maintenance of range improvements on the Arab allotment. A copy of this letter must be in possession while engaged in any tree cutting.

This letter will serve as your 2016 Annual Operating Instructions for the Arab Allotment. If you have any questions please contact Kendell, or Matt at (928) 368-2100 or (928) 535 - 7300.

Sincerely,
