**Subject:** Cow Canyon Fire BAER Post-fire Rehabilitation Pilot Authorization

**To:** Forest Supervisor, Apache-Sitgreaves National Forest

We have received and reviewed your December 17, 2020 BAER assessment and Post-fire Rehabilitation Pilot request for the Cow Canyon Fire. The BAER assessment determined that emergency stabilization was not needed. However, there was fire damage to allotment boundary fencing that does meet the criteria under the Pilot. The request for funding of \$28,032 is authorized for specified treatments, rather than lump sum funding.

An emergency stabilization incident job code H3NM3P override code 0301 will be established for the implementation of this project. Project must be complete within one calendar year for all authorized treatments. The Forest is responsible for providing financial oversight for this project. Any changes to this plan must be approved by the Regional Office. In addition, you will be required to provide a final accomplishment report by February 1, 2022. Please contact Anna Jaramillo-Scarborough, Regional BAER Coordinator, at 505-842-3254 or [anna.jaramillo@usda.gov](mailto:anna.jaramillo@usda.gov) if you have any questions.
