Dear Bruce:

This letter will serve as Amendment Number Two to your 2004 Annual Operating Instructions (AOI) for the Beaver Creek Allotment. This amendment documents the necessary changes in your allotment's livestock grazing schedule. Below is the amended schedule for the period of time from March 1, 2004 to February 28, 2005.

Your current ten-year term permitted livestock numbers are for 550 head of cattle (cow/calf/bull) for a yearlong grazing season and 480 to 600 yearling cattle from May 15 to October 15 grazing season.

On February 3, 2004 your yearlong grazing application for 2004 grazing season was approved 200 cattle (cow/calf/bull) from March 1, to August 31. And on April 28, 2004 the summer seasonal portion (Landmark Unit) of your allotment was approved for 200 yearling cattle from May 15, 2004 to October 15, 2004. From approximately May 15 to October 15 yearlong and seasonal cattle herds will be combined and grazed primarily within the Landmark Unit's pastures and then moved into the summer/winter ranges of the yearlong allotment. See the scheduled rotation and management sequence listed in the tables below.
