Decision:

It is determined to implement the proposed action described in EA# AZ-025-97-04. It is my decision to adopt the Proposed Action and allow the changes in livestock management, and the development of additional range improvement

Rationale for Decision:

Based on the environmental analysis, a net beneficial impact would result from implementing the Proposed Action. These actions would increase forage availability in the allotment, improve wildlife habitat and the control of livestock, provide for better distribution livestock grazing, which may help to maintain or improve upland and riparian habitat conditions.

Stipulations: None.
