

**CLIFTON RANGER DISTRICT
APACHE/SITGREAVES NATIONAL FOREST'S
ANNUAL OPERATING INSTRUCTIONS (AOI)
Scott, Wendy, Jason, Jennifer Bryce**

**Double Circle Allotment
2017**

I. PERMITTED USE:

The following table illustrates the number of livestock and season of use permitted on the Double Circle Allotment as per Term Grazing Permits 30103020 issued to Scott, Wendy, Jason, and Jennifer Bryce on December 7, 2012.

KIND	CLASS	NUMBERS	SEASON OF USE
Cattle	Cow/Calf	411	3/1 – 2/28
Horse	Horse or Mule	18	3/1 – 2/28

II. AUTHORIZED USE:

The following numbers and classes of livestock are authorized to graze on the Double Circle Allotment this year.

KIND	CLASS	NUMBERS	SEASON OF USE
Cattle	Cow/Calf	423	03/01 – 2/28
Horses	Mature	4	03/01 – 2/28

III. ROTATION SCHEDULE:

Actual dates may vary dependent on utilization levels, range conditions and time required moving livestock.

PASTURE	HEARD	NUMBER	SEASON OF USE	USE STANDARD
GREY PEAK	#1	109 C/C + 16 BULLS	3/1 – 7/30	35% - 45%
TABLE TOP	#1	109 C/C + 16 BULLS	8/1 – 11/30	35% - 45%
ST TRAP	#1	109 C/C + 16 BULLS	12/1 – 2/28	35% - 45%
COTTONWOOD	#1	109 C/C + 16 BULLS	12/1 – 2/28	35% - 45%
BIG DRY	#2	97 C/C + 12 BULLS	3/1 – 7/30	35% - 45%
SHEEP WASH (Upper)	#2	97 C/C + 12 BULLS	8/1 – 11/30	35% - 45%
BUTTE	#2	97 C/C + 12 BULLS	12/1 – 2/28	35% - 45%
DC FIELDS	#3	101 C/C+2 BULLS	3/1 – 5/30	35% - 45%
MOORE TRAP	#3	101 C/C+2 BULLS	3/1 – 5/30	35% - 45%
FREEMPORT	#3	101 C/C+2 BULLS	6/1-10/31	35% - 45%

BEE SPRING	#3	101 C/C+2 BULLS	11/1-2/28	35% - 45%
NO BAR WEST	#4	73 C/C+5 BULLS	3/1-4/30	35% - 45%
UPPER MAIN	#4	73 C/C+5 BULLS	5/1-8/31	35% - 45%
LOWER MAIN	#4	73 C/C+5 BULLS	9/1-11/30	35% - 45%
FOUR BAR	#4	73 C/C+5 BULLS	12/1-2/28	35% - 45%
LODGE		4 HORSE	3/1-2/28	35% - 45%
WEANING TRAP	REST	REST	REST	REST
CROSS H	REST	REST	REST	REST
LOWER SHEEP WASH	REST	REST	REST	REST
OPEN DRAW	REST	REST	REST	REST
BIG DRY EAST	REST	REST	REST	REST
NO BAR EAST	REST	REST	REST	REST
PRUNER	REST	REST	REST	REST

*Traps would be utilized if more cattle are brought onto the Forest.

A deviation from the above schedule of more than 15 days must be approved by the District Ranger verbally or in writing. The District Ranger must be notified 5 days prior to the time livestock enter or leave the Forest if the placing on or removal of livestock is not planned in the above schedule, and more than 10 head are being moved.

IV. ALLOWABLE USE STANDARDS

Allowable use of forage is based on the amount and kind of forage on the allotment, plant needs, range condition, trend, and grazing management strategy. Duration, frequency, and timing may be manipulated within the grazing schedule to meet allowable use standards.

The allowable use levels for this allotment are established for key areas and key species by pasture for the time period livestock are in a pasture. The use on key species in key areas will ultimately determine the length of the grazing period in each pasture. The establishment of the utilization standards is consistent with 36 CFR 222 regulations, FSM 2210 and 2230, and FSH 2209.21.

For simplicity, key areas are generally considered as follows: 1) full capacity rangeland located on ridgetops/mesas within a 1/4 mile from available water sources; 2) canyon bottoms/riparian areas with free flowing water or springs regardless of distance from water; 3) any area containing full capacity range with erosive soils and insufficient/marginal ground cover to protect the soil; or 4) areas containing habitat, whether occupied, suitable and unoccupied, or potentially suitable habitat, for threatened, endangered, or proposed species that are of concern to the Forest Service.

Key areas may be designated in cooperation with the Forest Service and the permittee.

V. ADMINISTRATION

1. The permittee will record actual use as it occurs; including livestock numbers and dates your permitted livestock are in a pasture. This information will be reported at the next annual validation meeting.

2. Any change or deviation from this Annual Operating Instructions is to be coordinated and confirmed in advance with the District. If emergency conditions require making a change immediately, the permittee will notify the District as soon as practical.
3. Livestock remaining in pastures beyond the specified rotation date, that are allowed to drift between pastures, or grazing in rested pastures may be considered a violation of your Term Grazing Permit.
4. Livestock should be moved when forage utilization objectives have been met or within 1 week of planned rotation dates, unless changes have been confirmed with District Range personnel.
5. The District may spot check range improvements before the entry date to insure improvements are in a satisfactory condition. Livestock will not be allowed to enter pastures if assigned improvements are not maintained to proper standards. Livestock are not allowed to enter pastures if fences will not keep livestock where they are placed.

VI. SALT AND MINERAL BLOCK

Typically, salt or mineral blocks are not to be placed within a quarter mile of water or drainage bottoms. Salt may be placed closer than a quarter of a mile to water for treatment purposes. If salt is placed less than a quarter mile from water, it will be moved every day or within 4 days at the most to a new location no matter where the salt is placed. Salt will be used to attract cattle to areas of a pasture typically not utilized and or for soil/range condition treatment purposes. Blocks may be removed by the District if found near water, over-utilized areas, meadow bottoms or roads. Blocks should be placed in a way that does not encourage erosion but treats the soil to upgrade it from the present condition.

VII. MONITORING

Monitoring and evaluation is an essential aspect of good rangeland management. Monitoring and evaluation can be described as the gathering of information so the manager knows what is happening to rangeland resources and why. The intent of monitoring and evaluation is to test the success of the management strategy and if needed, make adjustments. The following types of monitoring can be collected and will be used by the Forest Service for management decisions.

1. Forage Production
2. Forage Utilization
3. Photo Points
4. Condition of Improvements
5. Actual Use
6. Grazing Response Index
7. Precipitation.

VIII. RANGE IMPROVEMENT CONSTRUCTION / MAINTENANCE

The permittee will maintain all range improvements that are assigned for maintenance on pages 11 – 14 of the Term Grazing Permit. When improvements are completed the permittee will inform District Range personnel to schedule an inspection. Before using machinery to clean any pond, the permittee is required to give the District Office at least 45 days advance notice so that the tank can be inspected for threatened or endangered species. All work involving the use of heavy equipment will be accomplished only after prior approval of the District Ranger.

Improvement Schedule		YEAR	2015
Improvement Type / ID #	Completion Date	Description/Comments	Status Done /Date
	Year Long	Routine maintenance as assigned on your permit	
	2017	Open Draw dirt tank deepen & fence	Needed archy clearance
	2017	Road maintenance (FR 217-A,B,C,D and FR 8326)	Needed archy clearance

	2017	Pipeline extension.	Needed archy clearance
--	------	---------------------	------------------------

IX. PROTECTION

The permittee, his agents and employees, when acting within the scope of their employment, and his contractors and subcontractors will protect the land and property of the United States, waived private land and other land under jurisdiction of the Forest Service covered by and used in conjunction with this permit. Protection will include taking all reasonable precautions to prevent, make diligent efforts to suppress and report promptly all fires on or endangering such land and property. During periods of high fire danger, branding fires will be allowed by permit only.

X. ALLOTMENT INSPECTIONS

Forest personnel may conduct periodic brief inspections of pastures within the allotment at any time to verify actual use, improvement conditions, or other non-range related activity. The permittee will be notified and invited to participate on extended (3-5 days) inspections.

XI. PERMIT CONDITIONS

This Annual Operating Instructions is hereby made a part of the Term Grazing Permit as provided for in Part 2, Section 8(a). It complies with the standards and guidelines found in the Forest Plan.

Failure to comply with any of the terms and conditions specified in Parts 1, 2, and 3 of your Term Grazing Permit may result in suspension or cancellation, in whole or in part, after written notice. This is found in Part 1, Section 3, of your permit.
