BUREAU OF RECLAMATION

ARIZONA PROJECTS OFFICE  
P.O. BOX 9980  
PHOENIX, ARIZONA 85068-0980

IN REPLY  
REFER TO:

APR 07 1992

AP0-804

Mr. James L. Kimball  
Forest Supervisor  
Tonto National Forest  
P.O. Box 5348  
Phoenix AZ 85010

Subject: Interagency Agreement No. 2-AA-32-00150 for Revised Allotment Management Plans for Wildlife Mitigation at Theodore Roosevelt Dam (Interagency Agreement)

Dear Mr. Kimball:

I am enclosing a fully executed copy of the subject agreement.

Under the terms of the agreement, funds will be made available for each Allotment Management Plan (AMP) upon execution of the modification incorporating that AMP. The first AMP to be implemented will be for the Bar V Bar/Campaign Allotment. After our review of the required documents, we will modify the agreement to include that AMP and corresponding funding.

Please address future correspondence on the agreement to Ms. Carol Harris, Contracting Officer (at the above address), who will be responsible for the administration of the agreement.

This letter also serves as notification that Mr. Henry Messing has been designated the Technical Representative for this agreement. At a later date, I will send you a copy of that designation for your information. Mr. Messing will be responsible for clarifying all technical matters regarding the agreement and can be reached at 602-870-6774.

If you have any administrative questions on the agreement, please contact Ms. Marion Emerson, Agreements Specialist, at 602-870-2544.

Sincerely,

*Dennis E. Schroeder*  
Dennis E. Schroeder  
Project Manager

INTERAGENCY AGREEMENT

FOR

REVISED ALLOTMENT MANAGEMENT PLANS

WILDLIFE MITIGATION

THEODORE ROOSEVELT DAM

BETWEEN

THE BUREAU OF RECLAMATION

DEPARTMENT OF THE INTERIOR

AND

THE FOREST SERVICE

DEPARTMENT OF AGRICULTURE

PREFACE

This Interagency Agreement is made by and between the Bureau of Reclamation, represented by the Arizona Projects Office of the Lower Colorado Region, hereinafter referred to as "Reclamation," and the Forest Service, represented by the Tonto National Forest of the Southwestern Region, hereinafter referred to as the "Service," pursuant to the Project Supplemental Agreement (PSA) for Theodore Roosevelt Dam dated September 23, 1988, and required by the Amendment to the Fish and Wildlife Coordination Act (FWCA) Report (dated May 4, 1989) on Plan 6, Regulatory Storage Division, Central Arizona Project, Arizona.

PURPOSE

In consultation under FWCA, the Service, Arizona Game and Fish Department (AGFD), Reclamation, and the Fish and Wildlife Service (FWS) agreed that upland desert and riparian habitat losses from Plan 6 construction could, in part, be mitigated through the promotion of better distribution of livestock grazing by implementation of new and revised Allotment Management Plans (AMP). Eleven allotments (see Table 1, below, List of Allotments) will be examined for opportunities to utilize fencing and water developments to meet vegetative response objectives, and achieve the desired livestock distribution throughout the allotments, especially below the Inflow Design Flood (IDF). It is the intent of this agreement to promote cooperative management within the Project Area as provided in Article VI.-G of the PSA, consolidate the individual AMP revisions into one centralized area for more efficient monitoring, and provide a vehicle for the expenditure of funding for mitigation which the interagency team has approved.

List of Roosevelt Lake Allotments	
A.	Bar V Bar/Campaign Allotment
B.	Dutchwoman Allotment
C.	Schoolhouse Allotment
D.	Roosevelt Allotment
E.	Del Shay Allotment
F.	7/K Allotment
G.	Tonto Basin Allotment
H.	A-Cross Allotment
I.	Armer Mountain Allotment
J-1.	Poison Springs Allotment
J-2.	Sierra Ancha Allotment

Table 1

STIPULATIONS

Reclamation will provide funds in an amount not to exceed \$647,360 (which includes \$465,000 for construction of features described in the AMPs, \$15,000 for riparian habitat protection in Salome Creek, \$48,000 for survey and design, \$50,000 for monitoring, and \$69,360 for Service administrative costs) for actual costs incurred by the Service to accomplish the mitigation team recommendations. Total estimated costs are shown on Table 2 below by Fiscal Years. (On Table 2, costs for Salome riparian habitat are included with the range improvement costs.)

ESTIMATED COSTS BY FISCAL YEARS						
Fiscal Year	Construction Costs	Survey & Design (10%)	Total Range Improvemnts	Monitoring Costs	Overhead (12%)	FY TOTAL
FY 1992	175,000	17,500	192,500	2,500	23,400	218,400
FY 1993	140,000	14,000	154,000	2,500	18,780	175,280
FY 1994	165,000	16,500	181,500	0	21,780	203,280
FY 1995				5,000	600	5,600
FY 1996				10,000	1,200	11,200
FY 1997				10,000	1,200	11,200
FY 1998				0	0	0
FY 1999				10,000	1,200	11,200
FY 2000				10,000	1,200	11,200
TOTAL	480,000	48,000	528,000	50,000	69,360	647,360

Table 2

Reclamation will participate with the Service in the development of each Grazing Strategy and associated improvements. For each AMP, the Service will provide for Reclamation review the following documents:

1. Completed AMP; signed by the approving official(s).
2. Environmental Assessment, signed by the approving official(s), including any appropriate clearances from cooperating agencies.
3. Map, associated list, and projected costs of all features (e.g., fencing, water developments, etc.) which will be constructed with Reclamation funding only under this agreement. These items will be discussed between appropriate Service and Reclamation representatives prior to the approving Service official signing the AMP.

After Reclamation review and acceptance of the above documents, the agreement will be modified to add each AMP as an exhibit (labeled as Exhibits A-J as listed in Table 1), and to obligate funds for that work.

The performance of any obligation or the expenditure of any funds by the Government under this agreement is contingent upon obtaining the necessary

Interagency Agreement No. 2-AA-32-00150

appropriations, and the funds being allocated and made available for the work required hereunder.

Quarterly billing requests will be sent (with backup information on types of costs incurred and appropriate vouchers from subcontractors for labor and materials) to the Project Manager, Attention: Code 804, Arizona Projects Office, P.O. Box 9980, Phoenix, Arizona 85068. All billings will also specify Reclamation's agreement number, 2-AA-32-00150; designate the allotment(s) in which the funds were spent; and indicate whether costs were for monitoring or for any other activities related to improvements.

This agreement shall be in effect from the date of signature by both parties until December 31, 2001, unless terminated sooner by mutual agreement.

This agreement may be modified, supplemented, extended or superseded at any time by sub-agreements thereto and/or by written concurrence between Reclamation and the Service.

Reclamation and the Service agree to meet and confer as necessary to resolve interagency differences with respect to the implementation of this agreement.

IN WITNESS WHEREOF, the parties hereto have agreed to this Interagency Agreement for the revision of grazing Allotment Management Plans to improve range conditions and wildlife habitat at Roosevelt Lake, to be effective upon the last date of signature of this agreement.
