

**SIERRA VISTA RANGER DISTRICT  
CORONADO NATIONAL FOREST  
ANNUAL OPERATING INSTRUCTION (AOI)**

**Kunde Allotment  
2025 Grazing Year**

**I. AUTHORIZED USE:** The following numbers and classes of livestock are authorized to graze on the Kunde Allotment:

KIND	CLASS	NUMBER	AUMs	AUTHORIZED SEASON OF USE
Cattle	Cow/Calf	79	948	03/01/2025 – 02/28/2025
Cattle	Bulls	6	108	03/01/2025 – 02/28/2025
	<b>Total</b>	<b>85</b>	<b>1056</b>	

AUM conversion factor =1.00 for cow/calf pair, 1.5 for bulls

**II. ROTATION SCHEDULE:** Actual dates may vary dependent upon climatic conditions, when utilization levels are reached and time required to remove cattle.

Pasture	Proposed Numbers	Proposed Season of Use	Comments (i.e. Use Standard, special concerns or instructions)
Turner	85	03/01/2025 – 04/30/2025	Cows + Bulls
Sorrels	85	05/01/2025 – 06/30/2025	Cows + Bulls
Bible	85	07/01/2025 – 09/30/2025	Cows + Bulls
Upper Lampshire	85	10/01/2025 – 12/31/2025	Cows + Bulls
Holding	85	01/01/2026 – 02/28/2026	Cows + Bulls
Redrock	-0-	REST	

If you should need to deviate from this rotation schedule by more than two weeks, please notify this office in advance. Livestock remaining in pastures beyond the specified rotation date, that are allowed to drift between pastures, or grazing in rested pastures may be considered a violation of your Term Grazing Permit.

**III. ALLOWABLE USE STANDARDS:**

Utilization in all pastures is not to exceed 45% in the key areas. Please refer to your key area map. Herding and salting will be used to ensure allowable use is not exceeded. If allowable use is in danger of being exceeded, the cattle should be removed from that pasture until the range recovers. Salt and supplement will be placed appropriately, on good feed, at least ¼ mile from water and out of livestock concentration areas and more than 200 feet from roads. Salt and supplement locations should be rotated so as not to degrade a particular site. Salt blocks may be removed by the District if found near water, over-utilized areas, or roads. Blocks should be placed on hard ground not susceptible to erosion.

**IV. MONITORING:**

The permittee will record actual use as it occurs, including livestock numbers and dates permitted livestock are in a pasture. This information will be reported at the next annual operating instruction meeting. Common implementation monitoring includes forage production, forage utilization, photo points, condition of improvements, actual use and precipitation data.

**V. RANGE IMPROVEMENT CONSTRUCTION / MAINTENANCE:**

The Forest Service may spot check range improvements before the entry date to insure improvements are in a satisfactory condition. Livestock will not be allowed to enter pastures if assigned improvements are not maintained to proper standards. Livestock will not be allowed to enter pastures if fences will not keep livestock where they are placed.

All troughs should have water when livestock are not present and be equipped so that small animals can safely enter and exit.

Vehicular access to range improvements listed in the term grazing permit is authorized for routine maintenance. Vehicular access is also approved for the construction of any new improvements not yet listed in the term grazing permit.

New range improvements and all ground disturbing activities will not be initiated until proper archeological clearances have been obtained. When improvements are completed the permittee will inform District Range personnel to schedule an inspection. Before using machinery to clean any pond, the permittee is required to give the District Office at least 30 days advance notice so that the tank can be inspected for threatened or endangered species. All work involving the use of heavy

equipment will be accomplished only after prior approval by the District Ranger. Improvement schedule is dependent upon funding.

Current Year Improvement Schedule			YEAR	2025
Permit Mod #	Improvement Type / ID #	Completion Date	Description/Comments	Status Done /Date
			Various water systems will be worked on with EQIP funds	Planning
				Planning
Previous Year Improvement Accomplishments			YEAR	2024
Permit Mod #	Improvement Type / ID #	Completion Date	Description/Comments	Status Done /Date
	Red Rock Well (Forest)	2024	Permittee solarized well with EQIP funds	Done
	Red Rock Well (private)	2024	Permittee solarized well with EQIP funds	Done

**VI. ROADS:**

Vehicular access on established roads can be essential for structural range improvement maintenance, supplement placement and general ranch duties. Any open road to the public (road on Motor Vehicle Use Map- *MVUM*) may be used at any time for any reason. The use of other established roads must be authorized within the Term Grazing Permit or in the Annual Operating Instructions. Cross country may be authorized by written permission from the District Ranger. Vehicular access is authorized on the following Forest Service inventoried roads not on the MVUM:

Road Number (From TAP Maps)	Reason for Use	Comments (i.e. Use Standard, special concerns or instructions)
Sorrels Tank road	Water system maintenance and supplement placement.	Approx. 1.0 mile of non-inventoried road from FSR 139 into Sorrels Pasture.

**VII. REFUNDS AND CREDIT OF GRAZING FEES PAID (FSM 2238.11g)**

Refunds will only be approved where the term grazing permit has been waived, the waiver of term grazing permit has been confirmed by the authorized officer, and a new permit issued to a qualified applicant indicated on the waiver of term grazing permit (FS-2200-12), or if a current permittee has applied for, and the authorized officer has approved, nonuse for which grazing fees have previously been paid.

Grazing fee credits will be approved when late entry or early removal of livestock is requested by the permittee for legitimate reasons and/or when delayed entry or early removal of livestock is requested by the authorized officer for reasons of resource protection. Credit for grazing fees will not be approved merely for the convenience of the permittee after the bill for collection is issued.

**VIII. PROTECTION:**

The permittee, his agents and employees, when acting within the scope of their employment, and his contractors and subcontractors will protect the land and property of the United States, waived private land and other land under jurisdiction of the Forest Service covered by and used in conjunction with this permit. During periods of high fire danger, branding fires will be allowed by permit only. Please report all fires to the Tucson Interagency Fire Coordination Center at 1-800-549-0661.

**IX. PERMIT CONDITIONS:**

This Annual Operating Instruction is hereby made a part of the Term Grazing Permit as provided for in Part 2, Section 8(a). It complies with the standards and guidelines found in the Forest Plan. Failure to comply with any of the terms and conditions specified in Parts 1, 2, and 3 of your Term Grazing Permit may result in suspension or cancellation, in whole or in part, after written notice. This is found in Part 1, Section 3, of your permit.

In 2021, the Forest consulted with the US Fish & Wildlife Service about on-going grazing activities and the impacts they may have on threatened and endangered species. You have been provided a copy of the Biological Opinion (BO). Please pay particular attention to the sections pertaining to the species on your allotment. If you need new copies, please contact this office. Please pay particular attention to the terms and conditions and conservation recommendations for each species.

To continue to meet Biological Opinion requirements for exclosures across the district, we are requiring that when your

livestock are grazing pastures bordering an enclosure, you must ensure that:

- 1.) enclosure fences are functional upon livestock entry to these pastures, and
- 2.) you check and repair enclosure fences every two weeks when your livestock are in a pasture adjacent to an enclosure.

The Kunde Allotment has the Falls and the Gate Springs enclosures. Cattle are not allowed in these enclosures and should still be checked for cattle presence when livestock are in adjacent pastures. If Livestock use has occurred in an enclosure, please notify the district with specifics of the incident.
