

**SIERRA VISTA RANGER DISTRICT
CORONADO NATIONAL FOREST
ANNUAL OPERATING INSTRUCTION (AOI)**

**Oak Bar Allotment
2023 Grazing Year**

I. AUTHORIZED USE: The following numbers and classes of livestock are authorized to graze on the Oak Bar Allotment:

KIND	CLASS	NUMBER	AUMs	AUTHORIZED SEASON OF USE
Cattle	Cow/Calf	220	2640	03/01/2023 – 02/28/2024
Cattle	Bulls	14	126	04/01/2023 – 09/15/2023
	Total	234	2640*	

*Although not annotated, the permittee will have the entire herd off Forest for a total of 10 days in 5-day intervals for branding throughout the year. Although the permitted number for the Oak Bar Allotment is 220 cow/calf pairs yearlong, or 2,640 AUMs, the permittee is authorized a greater number of livestock than permitted because of their time on private land. Stocking rates still fall below the 2,640 permitted AUMs on the Allotment.

II. ROTATION SCHEDULE: Actual dates may vary dependent upon climatic conditions, when utilization levels are reached and time required to remove cattle.

Pasture	Proposed Numbers	Proposed Season of Use	Comments (i.e. Use Standard, special concerns or instructions)
Lower 3R/Barrelas	220 + 14	03/01/2023 – 05/05/2023	Cows (Bulls on 04/01)
Upper 3R	220 + 14	05/06/2023 – 05/23/2023	Cows & Bulls
Private		05/24/2023 – 05/29/2023	Off Forest
Paja Verde	220 + 14	05/30/2023 – 08/01/2023	Cows & Bulls
Jarillas	220 + 14	08/02/2023 – 11/06/2023	Cows & Bulls (Bulls off 09/15)
Private		11/07/2023 – 11/13/2023	Off Forest
Upper 3R	220	11/14/2023 – 12/06/2023	Cows
Lower 3R/Barrelas	220	12/07/2023 – 02/28/2024	Cows

If you should need to deviate from this rotation schedule by more than two weeks, please notify this office in advance. Livestock remaining in pastures beyond the specified rotation date, that are allowed to drift between pastures, or grazing in rested pastures may be considered a violation of your Term Grazing Permit.

III. ALLOWABLE USE STANDARDS:

Utilization in all pastures is not to exceed 45% in the key areas. Please refer to your key area map. Herding and salting will be used to ensure allowable use is not exceeded. If allowable use is in danger of being exceeded, the cattle should be removed from that pasture until the range recovers. Salt and supplement will be placed appropriately, on good feed, at least ¼ mile from water and out of livestock concentration areas and more than 200 feet from roads. Salt and supplement locations should be rotated so as not to degrade a particular site. Salt blocks may be removed by the District if found near water, over-utilized areas, or roads. Blocks should be placed on hard ground not susceptible to erosion.

IV. MONITORING:

The permittee will record actual use as it occurs, including livestock numbers and dates permitted livestock are in a pasture. This information will be reported at the next annual operating instruction meeting. Common implementation monitoring includes forage production, forage utilization, photo points, condition of improvements, actual use and precipitation data.

V. RANGE IMPROVEMENT CONSTRUCTION / MAINTENANCE:

The Forest Service may spot check range improvements before the entry date to insure improvements are in a satisfactory condition. Livestock will not be allowed to enter pastures if assigned improvements are not maintained to proper standards. Livestock will not be allowed to enter pastures if fences will not keep livestock where they are placed.

All troughs should have water when livestock are not present and be equipped so that small animals can safely enter and exit.

Vehicular access to range improvements listed in the term grazing permit is authorized for routine maintenance. Vehicular access is also approved for the construction of any new improvements not yet listed in the term grazing permit.

New range improvements and all ground disturbing activities will not be initiated until proper archeological clearances have been obtained. When improvements are completed the permittee will inform District Range personnel to schedule an inspection. Before using machinery to clean any pond, the permittee is required to give the District Office at least 30 days advance notice so that the tank can be inspected for threatened or endangered species. All work involving the use of heavy equipment will be accomplished only after prior approval by the District Ranger. Improvement schedule is dependent upon funding.

Current Year Improvement Schedule			YEAR	2023
Permit Mod #	Improvement Type / ID #	Completion Date	Description/Comments	Status Done /Date
	Jarillas Pasture and Santa Cruz Allotment boundary fence		Replace the corner posts with steel braces and work on repairs/replacement of this fence as needed.	
Previous Year Improvement Accomplishments			YEAR	2022
Permit Mod #	Improvement Type / ID #	Completion Date	Description/Comments	Status Done /Date
	Replacement of troughs	2022	Troughs replaced in Lower 3R and Paja Verde pastures	Done
	Fence maintenance		Continued fence maintenance across the allotment	

VI. ROADS:

Vehicular access on established roads can be essential for structural range improvement maintenance, supplement placement and general ranch duties. Any open road to the public (road on Motor Vehicle Use Map- *MVUM*) may be used at any time for any reason. The use of other established roads must be authorized within the Term Grazing Permit or in the Annual Operating Instructions. Cross country may be authorized by written permission from the District Ranger. Vehicular access is authorized on the following Forest Service inventoried roads not on the MVUM:

Road Number (From TAP Maps)	Reason for Use	Comments (i.e. Use Standard, special concerns or instructions)
82-Unknown2	Access to Sand Well and Corral	
82-Unknown1	Access to Sand Well and Corral	
82-Unknown3	Pipeline and trough maintenance	
82-Unknown4	Pipeline and trough maintenance	
4656-0.77L-1	Pipeline and Trough Maintenance	
215-2.31L-1	Improvement Maintenance	
5653-3.27L-1	Improvement Maintenance	
215-3.14L-1	Access to water	
4658-1.36R-1	Improvement maintenance	
4658-0.71L-1	Water maintenance	

VII. REFUNDS AND CREDIT OF GRAZING FEES PAID (FSM 2248.11g)

Refunds will only be approved where the term grazing permit has been waived, the waiver of term grazing permit has been confirmed by the authorized officer, and a new permit issued to a qualified applicant indicated on the waiver of term grazing permit (FS-2200-12), or if a current permittee has applied for, and the authorized officer has approved, nonuse for which grazing fees have previously been paid.

Grazing fee credits will be approved when late entry or early removal of livestock is requested by the permittee for legitimate reasons and/or when delayed entry or early removal of livestock is requested by the authorized officer for reasons of resource protection. Credit for grazing fees will not be approved merely for the convenience of the permittee after the bill for collection is issued.

VIII. PROTECTION:

The permittee, his agents and employees, when acting within the scope of their employment, and his contractors and subcontractors will protect the land and property of the United States, waived private land and other land under jurisdiction of the Forest Service covered by and used in conjunction with this permit. During periods of high fire danger, branding fires will be allowed by permit only. Please report all fires to the Tucson Interagency Fire Coordination Center at 1-800-549-0661.
