

File Code: 2230
Date: February 11, 2025

Dear Permittee:

On February 10, 2025, Andy met with you to discuss the 2025 Annual Operating Instructions (AOI) for the Park Day Allotment. The pasture rotation and numbers agreed upon are as follows:

Table with 3 columns: Pasture, Head, Dates. Rows include Upper Reidhead, Upper Day, Lower Reidhead, Windmill, Sheeprail, West Scott, East Scott, Lower Reidhead, Corner, Lower Day.

The Park Pasture will be rested this year. Utilization standards for the 2025 grazing season should not exceed an average of 35% during the growing season and 45% during dormant season on grasses. Use on browse and riparian tree/shrub species will not exceed 45% of the current year's growth. Adjustments to this rotation may be needed during the grazing season. Any adjustments to the rotation need to be coordinated and approved by the Forest Service. When moving between pastures, livestock need to be completely moved out of the pasture within 3 days of the planned rotation date. You must notify the Forest Service in advance if there is a need to deviate from the planned move date. By this letter, I also authorize you or people working for you to cut, use or remove any trees needed for fence posts and stays for maintenance of structural range improvements within the Park Day Allotment. A copy of this letter must be in possession with you or them while engaged in any tree cutting.

Any range improvement projects and ground disturbing activities need to be coordinated with the Forest Service to make sure all clearances have been obtained before any work can begin on the ground.

If you have any questions, please contact Andy at the Black Mesa office, (928) 535-7300. This letter will serve as your Annual Operating Instructions for the 2025 grazing year on the Park Day Allotment. I am willing to meet with the permittee to hear and discuss any concerns or issues related to these Annual Operating Instructions.

Sincerely,

[Redacted signature]

MATTHEW BULLMORE
District Ranger
